STAGE 1 FIRE RESTRICTIONS TO BEGIN FRIDAY ON UINTA-WASATCH-CACHE NATIONAL FOREST

Salt Lake City, August 12, 2020 – Fire restrictions will be implemented on the Uinta-Wasatch-Cache National Forest at 12:00 a.m. (midnight) Thursday, August 13, 2020 for public health and safety and to reduce the potential for human-caused fires.

Under the restrictions, fires, campfires, charcoal, coal and wood stoves are allowed only in developed campgrounds. The restrictions also limit smoking to within enclosed vehicles, buildings, in developed campgrounds, or while stopped in an area at least 3 feet in diameter that is barren or cleared of any flammable material. Using a device that is solely fueled by liquid petroleum or LPG fuels that can be turned on and off is allowed in areas that are clear of flammable materials.

Implementation of fire restrictions normally occurs based on a combination of factors that are carefully measured. Criteria used to determine when to implement restrictions include current and predicted weather, fuel moisture, fire activity levels and available firefighting resources. Additional restrictions may be applied as conditions warrant.

Fire restrictions typically remain in effect until significant precipitation is received.

Visitors that are building and maintaining a campfire on the National Forest while under fire restrictions is a violation that carries a mandatory appearance in federal court. Visitors should use extra caution when recreating on all public lands during fire season. Know Before You Go!
